- Due to different manual measurement methods, please allow slightly different sizes.

WHAT'S IN THE BOX?

2 x Recovery Boards

HOW TO USE:

- **STEP 1:** When a vehicle is in trouble, do not always try to start. The rotation of the tires will cause the vehicle to sink further; a traction plate is required.
- **STEP 2:** The tire must touch the traction plate. Prevent the wheel from slipping with slow acceleration, low range drives four wheels to the traction plate.
- **STEP 3:** Speed up slowly until the vehicle is on a smooth surface. If this doesn't work, stop, remove dirt or sand and try again.
